

# HPE ProLiant ML30 Gen9 Server

The ideal first server for growing small businesses

#### Best-fit for:

- Small/home offices (SOHOs)
- Small to midsize businesses (SMBs)
- Remote/branch offices (ROBOs)

#### Ideal workloads:

- File, print, and business applications
- IT and web
- Virtualization
- Collaboration (email/workgroup)

## Plug and play simplicity for a variety of workloads

When time, budget, and IT resources are limited, your server choice is critical. What if you could leverage a full-featured server that delivers exceptional performance, versatility, and affordability along with a pre-loaded operating system that lets you get started right out of the box? HPE is redefining the end-to-end server experience with the HPE ProLiant ML30 Gen9 Server, powered by Intel®. The ProLiant ML30 can now come as a ready-to-use appliance, with the HPE qualified ClearOS operating system pre-loaded at no additional cost, so you can simply plug in your server and have it working, right away.

What makes this possible is the simple and easy-to-use ClearOS operating system. Built on Linux®, the reliable, secure ClearOS lets you manage your server via an intuitive browser-based interface. You also get immediate access to an application marketplace with over 100—and growing—curated applications that are ideal for small businesses. You can install these applications

as needed, and because ClearOS applications are also open source, you pay only if you want support, so you can plow the savings back into your business.

## It's easier than ever to build the right solution

Enterprise-class performance, reliability, and manageability make the HPE ProLiant ML30 Gen9 Server the ideal choice for many single-socket workloads such as file and print, business apps, IT and web, virtualization, and collaboration. Flexible configuration options such as hard drives, power supplies, and drive cages allow you to tailor the server for your current needs, and expand as you grow with HPE Server Options like memory, storage, storage controllers, and networking options. Support for an optional NVIDIA® Quadro M2000 graphics accelerator lets you handle graphics requirements for workloads such as medical imaging and 3D rendering. Powered by the latest Intel processors, the ProLiant ML30 gives you great compute power in a 1P tower, making it easy for you to adopt even when IT resources are thin.

## Technical specifications

In the following table, the **bold** text in the right-hand column denotes new features, as compared to the HPE ProLiant ML310e Gen8 v2 Server.

HPE ProLiant ML30 Gen9 Server	
<b>Compute</b>	One Intel Xeon® <b>E3-1200 v5/v6 series</b> , 2/4 cores <b>PCIe 3.0</b> , up to four slots
<b>Operating system</b>	<b>ClearOS pre-installed at no extra cost (optional)</b> , <sup>1</sup> or various other choices of OS (visit the <b>OS Support matrix</b> for details)
<b>Memory</b>	HPE Standard Memory (4) <b>DDR4</b> , up to <b>2,400 GHz</b> (64 GB max.)
<b>Storage</b>	Standard HPE Dynamic Smart Array <b>B140i</b> , optional HPE Smart Array Controllers, and HPE Smart Host Bus adapters (HBAs) via PCIe stand-up cards
<b>HPE SmartDrives</b>	Eight SFF/4 LFF/4 Non-Hot-Plug LFF SATA/SAS max, HDD/SSD, HH media kit for two more optional LFF SATA drives
<b>Networking</b>	Two 1GbE embedded
<b>VGA/Serial/USB ports/SD</b>	One VGA, ten USB, one microSD
<b>GPU support</b>	NVIDIA Quadro M2000 (optional)
<b>Enterprise/Advanced management</b>	HPE iLO Advanced (optional)
<b>On-cloud management</b>	HPE Insight Online with mobile application
<b>On-system management</b>	HPE iLO 4 (optional iLO Essentials), Intelligent Provisioning, System Update Manager (SUM), UEFI
<b>Power and cooling</b>	350 W power supply unit; 460 W redundant power supply
<b>Chassis depth</b>	4U 18.71 inches
<b>Warranty (parts/labor/on-site)</b>	3/1/1

<sup>1</sup> Pre-loading of ClearOS operating system is available only on SKUs with HDDs
